Early morning departure from Temple Bay.

Factory Visit - integrated sugar, power and alcohol plant visit. Lunch provided by EID Parry.

Return for dinner at Temple Bay.

Wednesday 4th November - Exploring the Three Pillars of Sustainability.

Key note speaker - MD of EID Parry

Official BSI Business

Chairman's Report - Daudi Lelijveld

BSI Executive Report - David Willers - Election of Management Committee

Global Economic Outlook - Speaker to be confirmed

With the price of raw sugar hitting 30 year highs what does this mean for the Indian sugar industry? How will the high price of sugar affect the environmental sustainability of sugar cane? What effect has it had on the domestic market? What will be the impact on the rest of the world? The futures market - if you were to look into a crystal ball what could the economic sustainability of sugar look like.

Social - speaker to be confirmed

A speaker to highlight and give a thought leadership (opinion) presentation on some of the social issues that are unique to the Indian sugar industry.

Biodiversity - Professor Geetha Lakshmi

Sustainable farming techniques used in India and how it relates to the environmental global picture. The affect of climate change on the sugar cane industry and what, if any, techniques can be employed to ensure the sustainable production of sugar.

Lunch

BSI Standard Version 2 an in-depth content discussion

Scene setting

Part one: Augusto Freire - presentation on the reality of the first audits conducted according to the BSI Standard. Countries discussed: Australia, Brazil, Dominican Republic and India.

Part two: Technical Working Group leaders will explain how the audit results, stakeholder outreach meetings and public consultation has influenced the draft indicators and criteria of Version 2.

Part three: Line by line analysis of the Standard.
